

October 8, 2013

The Honorable Kristi Noem
U.S. House of Representatives
1323 Longworth House Office Building
Independence and New Jersey Avenues, S.E.
Washington, DC 20515

Dear Representative Noem:

On behalf of the 39 undersigned organizations representing the Nursing Community, we thank you for introducing the Protecting Access to Rural Therapy Services (PARTS) Act (H.R. 2801). Collectively, the Nursing Community represents nearly one million Registered Nurses, Advanced Practice Registered Nurses (APRNs), nurse executives, nursing students, nursing faculty, and nurse researchers. Our organizations are committed to improving the health and health care of our nation by collaborating to support advancements in nursing education and practice. The Nursing Community supports this legislation which would allow certain outpatient therapeutic and diagnostic services to be provided under general supervision, rather than direct supervision, of a physician or certain non-physician practitioner.

The bill includes in its definition of “non-physician practitioner” the four APRN roles (nurse practitioner, certified registered nurse anesthetist, certified nurse-midwife, and clinical nurse specialist). As providers of high-quality care for rural communities, the PARTS Act supports these clinicians to practice to the full scope of their education and training as defined by state law. Moreover, by eliminating the Center for Medicare & Medicaid Services current requirement that non-physician providers must be under direct supervision at the time services are furnished, the bill helps address the demand for these critical services in rural areas, and in particular when a health provider shortage is present.

The Nursing Community commends this legislation’s effort to support APRN practice and ensure some of our nation’s most vulnerable patients receive the services they need in a timely manner. If our organizations can be of any assistance, please contact convener of the Nursing Community Dr. Suzanne Miyamoto, at Smiyamoto@aacn.nche.edu or 202-463-6930, ext. 247.
