

November 13, 2023

The Honorable Mike Johnson  
Speaker of the House  
United States House of Representatives  
Washington, DC 20515

The Honorable Charles E. Schumer  
Senate Majority Leader  
United States Senate  
Washington, DC 20510

The Honorable Hakeem Jeffries  
House Minority Leader  
United States House of Representatives  
Washington, DC 20515

The Honorable Mitch McConnell  
Senate Minority Leader  
United States Senate  
Washington, DC 20510

Dear Speaker Johnson, Leader Schumer, Leader McConnell, and Leader Jeffries:

On behalf of all 63 member organizations representing the Nursing Community Coalition (NCC), we recognize how important passing a federal budget is to support our current and future nurses who are so vital to the health of our nation. As Congress works to finalize fiscal year (FY) 2024 appropriations before the November 17<sup>th</sup> deadline, and hopefully avoid a long-term continuing resolution (CR), we respectfully request that any FY 2024 spending package includes **at least \$302.472 million for Title VIII Nursing Workforce Development Programs** (Title VIII of the Public Health Service Act [42 U.S.C. 296 et seq.]) and **at least \$197.693 million for the National Institute of Nursing Research (NINR)**, as outlined in the Senate Appropriations Committee passed bill.

The Nursing Community Coalition is a cross section of education, practice, research, and regulation within the nursing profession. Together, the NCC represents Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs),<sup>1</sup> nurse leaders, boards of nursing, students, faculty, and researchers. As the largest segment of the health care profession,<sup>2</sup> nursing is involved at every point of care. As a coalition and as a country, we have witnessed the immense impact public health emergencies have on our nursing students and workforce. In fact, the Bureau of Labor Statistics (BLS) projected that by 2032 demand for RNs would increase 6%, illustrating an employment change of 177,400 nurses.<sup>3</sup> Further, the demand for most APRNs is expected to grow by 38%.<sup>4</sup>

---

<sup>1</sup> APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

<sup>3</sup> U.S. Bureau of Labor Statistics. (2023). Occupational Outlook Handbook- Registered Nurses. Retrieved from: <https://www.bls.gov/ooh/healthcare/registered-nurses.htm>

<sup>4</sup> U.S. Bureau of Labor Statistics. (2023). Occupational Outlook Handbook- Nurse Anesthetists, Nurse Midwives, and Nurse Practitioners. Retrieved from: <https://www.bls.gov/ooh/healthcare/nurse-anesthetists-nurse-midwives-and-nurse-practitioners.htm>

The need for nurses and APRNs is not only outlined by BLS, but can be seen in communities across the nation, including rural and underserved areas. In fact, the American Nurses Foundation’s third COVID-19 impact study found that 19% of nurses said they intend to leave their position in the next six months, and 27% are considering leaving.<sup>5</sup> Most recently, the National Council of State Boards of Nursing (NCSBN) unveiled their research, “Examining the Impact of COVID-19 Pandemic on Burnout & Stress Among U.S. Nurses,” which found that approximately 100,000 RNs left the workforce during the pandemic and another 610,388 RNs report an “intent to leave” by 2027 due to stress, burnout, and retirement.<sup>6</sup> “Altogether, about one-fifth of RNs nationally are projected to leave the health care workforce.”<sup>7</sup>

This reality underscores the heightened need for bold investments in our Title VIII Nursing Workforce Development Programs, not only as we address the current needs of the profession, but as we prepare for the health care needs of tomorrow. As the largest dedicated funding for our current and future nurses, the Title VIII programs have helped bolster and sustain the nation’s diverse nursing pipeline by addressing all aspects of nursing workforce demand. With an aging workforce, aging population, and need to support our frontline providers, funding for Title VIII must meet levels reflecting the nursing population it serves. Therefore, with more than four and a half million nurses throughout the country,<sup>8</sup> we strongly urge historic support for these programs in FY 2024.

We have also seen the importance of science in the discussion of cures and preparedness. As one of the 27 Institutes and Centers at the National Institutes of Health, NINR’s research is aimed at reducing the impact of social determinants of health and creating a more equitable health care system by promoting patient-centered care across the life continuum. The translational research by our nation’s nurses and scientists is essential to developing new evidence-based practices to care for all patients. Through increased investments in NINR, they will be able to continue their vital work at the forefront of disease prevention, patient care, and recovery.

Now is not the time to go backwards. As you determine a final FY 2024 budget, and avoid a long-term CR, we urge you to **invest in our nation’s nurses by providing at least 302.472 million for Title VIII Nursing Workforce Development Programs and at least \$197.693 million for the National Institute of Nursing Research (NINR)**. We appreciate your work to safeguard the public’s well-being by putting forward bold investments for these critical programs. If our organizations can be of any assistance, or if you have any questions, please contact the Nursing Community Coalition’s Executive Director, Rachel Stevenson, at [rstevenson@thenursingcommunity.org](mailto:rstevenson@thenursingcommunity.org).

Sincerely,
