

October 31, 2023

RDML Jennifer Moon, DNP, MPH, MSN, FNP-BC Chief Nurse Officer U.S. Public Health Service (USPHS) Commissioned Corps Office of the Surgeon General U.S. Department of Health and Human Services 200 Independence Ave. S.W. Washington, DC 20201

Dear RDML Moon:

On behalf of the <u>Nursing Community Coalition (NCC)</u>, we would like to congratulate you as the new Chief Nurse Officer at the U.S. Public Health Service Commissioned Corps and welcome the opportunity to meet and discuss shared goals. The NCC represents a cross section of education, practice, research, and regulation within the nursing profession and believes that the healthcare delivery system should be one that promotes wellness, advances research through scientific discovery, and provides timely access to care across the life continuum. We are proud to continue our work with the USPHS Commissioned Corps, especially as nurses, Advanced Practice Registered Nurses (APRNs),<sup>1</sup> nurse leaders, boards of nursing, students, faculty, and researchers represent the largest segment of the healthcare workforce.

As we have witnessed, nurses and APRNs are among the leading experts at the frontlines. Through your work at the Centers for Medicare & Medicaid Services (CMS), including as part of the Affordable Care Act (ACA) implementation efforts, and at the ICE Health Service Corps (previously the Division of Immigration Health Services), you understand the importance of ensuring access to high-quality health care. We recognize how important the USPHS Commissioned Corps, and the nurses who serve, are to these efforts, no matter if it is in a remote rural area, or a large urban city. Ensuring the health care of communities across the country is crucial. That is why we have supported various initiatives to remove barriers to practice, encourage innovation, and address all public health challenges, including COVID-19 and the ongoing opioid and mental health crises.

The unique partnership the Nursing Community Coalition has created with our members allows our national organizations to unite on shared agendas and promote America's health through nursing care, research, and science. We would welcome the opportunity to meet with you directly and share our collective priorities. In the meantime, and as you begin your work in this new role, please let us know if

<sup>&</sup>lt;sup>1</sup> APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

we can be of any assistance by contacting the Nursing Community Coalition's Executive Director, Rachel Stevenson, at <a href="mailto:rstevenson@thenursingcommunity.org">rstevenson@thenursingcommunity.org</a>.

Sincerely,
