NCC MEMBERSHIP

With 64 members, the NCC membership continues to represent the cross section of education, practice, research, and regulation within the nursing profession. Together, we provide a unified voice as we work with the new 119th Congress and Administration.

LETTERS, STATEMENTS & TESTIMONY

Since July 2024 we have witnessed the end of one Congress and Administration and the beginning of another. During this transition, proposals to eliminate foundational federal programs for nursing, including the majority of Title VIII Nursing Workforce Development Programs and the National Institute of Nursing Research (NINR) have been released. The NCC has responded and urged federal policymakers to preserve and enhance these vital nursing education, practice, and research programs. In addition, the NCC has engaged on a number of bipartisan, bicameral bills, which can be reflected in the increase number of letters, statements, and testimony over the past fiscal year.
